

HenderCare Foundation Grants

The **HenderCare Foundation Remote Communities Grant** has been established for Aboriginal children and young people living in remote communities.

The **HenderCare Foundation Disability Grant** has been established for children and young people living with disability in South Australia.

HenderCare Foundation is working together with Morialta Trust Inc. to administer and distribute these grants. We welcome applications from organisations for projects that address issues of disadvantage and isolation of children, young people, and their families in South Australia.

HenderCare Foundation is an independent not-for-profit organisation, committed to improving the lives of vulnerable children and young people living with disabilities or under the care of child protection services and who are unable to live in their family home. Our large team of caring professionals take immense pride in our capacity to respond to the unique needs of every child and young person placed into our care and to ensure that they feel safe, nurtured and heard.

At **HenderCare Foundation** we believe that children and young people thrive in a safe, nurturing environment that is responsive to their individual needs for development and healing. By experiencing relationships that are built on trust, respect and reliability, children and young people are supported to build connections with peers, safe adults, and the community and embrace their identity. As children and young people grow in self-confidence and develop resilience, they can aspire to a future that is meaningful, fulfilling and self-determining.
